ing them along. It a man does not happen to be a member of any athletic association of the college that does not prevent him from playing on any team, and why should it? If we go ahead on that idea we will have a baseball team that can be beaten by almost any nine in St. Louis, as it was announced to-night that not over six baseball players in the school are in good standing with the athletic association. "It is laid to the door of stinginess, and in one case to 'swelled head,' that the boys do not pay their dues, but such accusation."

ing with the athletic association.

"It is laid to the door of stinginess, and in one case to 'swelled head,' that the boys do not pay their dues, but such accusations are made by men out of their school days who forget the trouble they had in saving to at a time, and that is the amount of the annual dues to our association." Of course, it is understood that a few of the boys might not be innacially able to pay the dues without considerable sacrifice to themselves, and they are exempt from payment.

The argument resolved itself into the question, "WEI St. Louis University be represented in athletics by its best teams or by those who can very well afford to part with the \$5." The boys of the Jesuit institution love to see their colors in the lead too well to let a little thing like that interfere with their having out the very best sprinters, pole-vaulters, baseball payers, etc. when the time comes for such contests.

The report of the treasurer shows that the association is in fair condition, considering the heavy burden of debt under which it commenced the present term.

It was decided that no bockey team could play under the name of the St. Louis University Alumni Association unless every member of it was a graduate of the school. This will force one of the prospective sevens for the Ice Palace to change its name before playing. St. Louis University athletics will be given a rest until after the Christmas holidays, when the baseball candidates will heave his hands full of lively youngsters in good condition, who are hard enough to handle under any circumstances. There is some talk of the very, so Martin Delancy will have his hands full of lively youngsters in good condition, who are hard enough to handle under any circumstances. There is some talk of the university track team being taken out to the grounds of the St. Louis A. A. A. for training this season, as the new track out there would be much better for the prespects of the team than the sidewalk work which has been given them through force of circumstan

Beat Hutchings in a Fast Game of Billiards.

Tom Wright beat Mr. Hutchings in the local class "R" three-cushion billiard tournament last night. The final score was 49 to 25 in favor of Mr. Wright. Mr. Hutchings started off like a winner, but his opponent finished stronger.

Mr. Wright seemed to get the worst of the breaks, but when he finally struck his strade, counted with great regularity. He made three runs of 4 during the game, two of them coming at the most opportune time. Mr. Hutchings had a lead of 19 points on Mr. Wright when the latter knocked out 8 points in two limings.

Mr. Hutchings had a lead of 19 points on Mr. Wright when the latter knocked out 8 points in two limings.

Mr. Hutchings made the high run of the game—6-which is also one of the biggest runs of the tournament. He played nice billiards from start to finish, some of his shots being worthy of a professional expert.

Two of his drop shots across the table were exceedingly meritorious. Another one of his best shots was a reverse English on one rail, the ball taking four cushions. Another sensational count by Mr. Hutchings was a bank shot across the table.

Mr. Wright's best shots were two up-and-down-the-table flyers that were made in the thirtieth liming, and his force-follow in the fortieth inning.

To-night Mr. Wright and George Schaefer will play. Should Mr. Schaefer win, Messrs, Wright, Schaefer and Hutchings will be tied for second position in the tournament. The summary of last night's game:

LIPTON PREPARES A SURPRISE.

LIPTON PREPARES A SURPRISE.

SPECIAL BY CABLE.
London, Dec. 4.—(Copyright, 1999, by W. R. Hearst.)—Sir Thomas Lipton is preparing a big surprise in the building of Shamrock II. She will be constructed on the Clyde, but at another secret place, just as the first Shamrock was secretly built by the Thorneycrofic, after the announcement that Harlem Woiff of Belfast would be the builder.

Harlem Woiff of Belfast would be the builder.

Materials are being gathered at Hendersons yard, Glasgow, but it is improbable that they are the builders, as the water front at Hendersons will not permit the launching of vessels exceeding seventeen feet draft, while the new Shamrock will draw more than twenty feet.

Watson is devoting his attention to getting metal plates for the boat. He was in London to-day, and had a long conference with Lipton. The latter has urged haste in the construction of the beat, so as to fit out early in the spring for a long series of trial races. Lipton told Watson if the improvement in design will make the new boat five minutes faster than the old challenger he will gain at least ten minutes more by the improvement in handling. That is why he wants an early launching.

Sir Thomas informed your correspondent that he hardly thinks it possible to get much ahead of the Herreshoffs in design, but if the boats prove equal, he hopes to win by seamanship.

Chicago, Ill., Dec. 4.—The Record to-morrow will say:

"Chicago race tracks will not secede from the American Turf Congress, as the body governing Western racing is called, because of the date restrictions passed by the Congress, at its annual session here in September, Instead, the local ewners will follow their own sweet will in regard to the dates and allow the Turf Congress, if it does not recede from its position, to "outlaw" the tracks. Such is the plan which is now being discussed by the local men.

The tracks mentioned are Hawthorn. Harlem, Lakeside and the new track at Worth. Washington Park is not expected to cut much figure in the conference because it will receive its usual twenty-five days for a meeting at about the usual time. Secretary Howard of the Washington Park Club holds the position of president of the American Turf Congress, but has agreed to stand by the other local tracks in the event of trouble. It is possible the St. Louis interests, which intend also to disregard the new rule, may be invited to be present when the local magnates meet in conference here this week.

Milwaukee, Wis., Dec. 4.—As far as Milwaukee and other Western cities are concerned, the matter of establishing a new baseball league, to be known as the National Association, is off. Failure of certain Eastern men to co-operate in the plan of formation is given as the cause for abandoning the project.

A. H. Koch of Milwaukee, who represented this city's interests in the talked-of new league, when seen to-day, said:

"As far as mysself and other Milwaukeeans are concerned, the formation of the baseball league to be known as the National Association is off for the coming year at least. Everything was going along nicely until McGraw and Robinson, in the East, went back on us. The Western end was solid for the movement and everything looked extremely hopeful until the change came in the East and we were deserted by McGraw and his celleague.
